

# Memorandum

To: Market Pricing Working Group  
From: John MacKenzie, IESO  
Date: August 8, 2008  
Re: **Recommendation to close MPWG Action Items 47-4 and 48-6**

## AI 47-4

IESO to investigate the feasibility of reporting activations of OPA demand response programs as part of the monthly pricing event reporting.

The IESO will report the number of OPA DR3 activations per month as part of the MPWG monthly pricing events reporting starting with the reports presented at the August 19<sup>th</sup> meeting. Further details on OPA demand response program activity are published by the OPA on a quarterly basis. The first quarter report for 2008 can be found on the OPA web site at the following link:

[http://www.powerauthority.on.ca/Storage/77/7274\\_ConservationRprt08Q1.pdf](http://www.powerauthority.on.ca/Storage/77/7274_ConservationRprt08Q1.pdf)

**Recommendation:** AI 47-4 be closed

## AI 48-6

IESO to provide examples as to how imports have offered operating reserve.

A market participant can import 10-minute non-synchronized and 30-minute operating reserve into Ontario by:

- Submitting an operating reserve offer along with a corresponding import energy offer; or
- Submitting a bid to export energy from Ontario with a corresponding offer to import operating reserve into Ontario. The participant is willing to have the IESO curtail the export transaction to activate the offered operating reserve.

**Recommendation:** AI 48-6 be closed

Yours truly,

John MacKenzie
