Subject: Joint Scheduling for the Wind Power Standing Committee and SE-57 Meetings

This e mail is being sent to members of the Wind Power Standing Committee (WPSC) and attendees from the Embedded Generation (SE-57) meetings

Stakeholders are advised that the May 6 WPSC meeting has been temporarily postponed. In an effort to enhance efficiency and avoid redundancy in wind initiatives, the IESO is proposing to jointly schedule the WPSC and Embedded Generation (SE-57, see http://www.ieso.ca/imoweb/consult/consult_se57.asp) meetings on the same day, with the WPSC following the SE-57 meetings.

The next jointly scheduled meeting of the WPSC and SE-57 is anticipated during the third week of June, 2009. The IESO will notify stakeholders about the date, location and agenda of the next meeting well in advance.

For questions or concerns about this proposed change, please contact stakeholder.engagement@ieso.ca
