

OEB 2006 Electricity Distribution Rate Decisions

Revenue Metering Sub-Committee Meeting

May 10, 2006

Richard Zaworski

2006 Electricity Distribution Rate Decisions

- **Decision and Order is posted on the OEB web site**

http://www.oeb.gov.on.ca/html/en/consumers/understanding/2006edr_decisions.htm

The screenshot shows the Ontario Energy Board website. At the top right, there are navigation links: Home, Search, Sitemap, Contact Us, and Français. Below this is the Ontario Energy Board logo and a navigation menu with links: About the OEB, Communications, For Consumers, Hearings & Decisions, Industry Relations, Licences, and Links. The main content area is titled "2006 Electricity Distribution Rate Decisions". Under the heading "Consumer Impacts", there is a link to a table showing the impact on an average consumer bill. Below this, there are two tables listing utilities and their corresponding Decision and Rate Orders.

Midland Power Utility Corporation	• Decision and Order
Milton Hydro Distribution Inc.	• Decision and Order
Niagara Falls Hydro Inc.	• Decision and Order
Niagara-on-the-Lake Hydro	• Decision and Order
Norfolk Power Distribution Ltd.	• Decision and Order

2006 Electricity Distribution Rate Decisions

- Number of submissions are currently under review
- As approvals are issued, the Web site is updated
- New rates effective May 1, 2006
- Tariff of Rates and Charges includes TLF approvals
 - SFLF and DLF are not detailed
- New TLF rate may impact IESO settlement
 - Large percentage of TLF's have changed
 - Hydro One's TLF (3.4% and 0.6%) remains unchanged*

Registration of TLF change

- All registration changes to a totalization table must be initiated by the MSP
 - Includes update to the TLF
- Effective date of the totalization table update is determined by the Preliminary Push date of the trade day (implementation day)
- Approximately 380 embedded metering installations are currently registered
 - Majority embedded within Hydro One
 - Approx. 50 belong to industrial end use Market Participants (non-LDC's)

TLF Priority and Application

- **Need to prioritize TLF update submissions**
 - **End use Market Participants (non LDC's)**
 - MSP's have been contacted
 - **All others (LDC's)**
- **IESO to meet with OEB to discuss 2006 Rate Order (Tues. May 16)**
 - **Review MM3.7 Appendix D; Settlement Principles**
 - **Has definition of TLF changed?**
 - $TLF = DLF + SFLF$
 - Does TLF include SS component
 - **Pancaking of TLF's and DLF's**
 - Require DLF and SFLF components
 - Is application correct and appropriate
 - **Implementation of TLF's for LDC's**
 - May 1, 2006 is not practical given the number of registration changes to be implemented
 - May require coordination with multiple MSP's at some facilities
