Re: Prioritization of IJT Related Initiatives & Actions List

In preparation for the upcoming IJTSC meeting on December 7th, 2007, I am sending out a request to all IJTSC members for input on the sequence of priority for all outstanding initiatives and actions related to the IJT.

Please review the items on the list and assign a numerical ranking according to preference for items 3 through 16. These items represent all active issues that will be addressed through the IJTSC. Please enter all rankings in the last column replacing the question marks, starting with a rank of 1 for the item with most priority, counting upwards for items of lesser priority.

All completed forms should be emailed to dave.robaille@ieso.ca.

Submissions will be accepted up to the end of business day on December 4, 2007. At which point, the submitted rankings will be averaged and sorted accordingly. The resulting priority will be presented at the IJTSC meeting, with a discussion period taking place at the end that will finalize the order for the upcoming year.

Along with this memo, you should also receive the preliminary agenda for the upcoming meeting, please review and notify myself if you have a topic that you are interested in presenting and would like us to add to the agenda.

Regards,

Dave Robitaille
